U17.com

What-you want to continue the unsolved duel in the mountains?
A most welcome suggestion!
Words ahead. If I win you give me that three-stripes

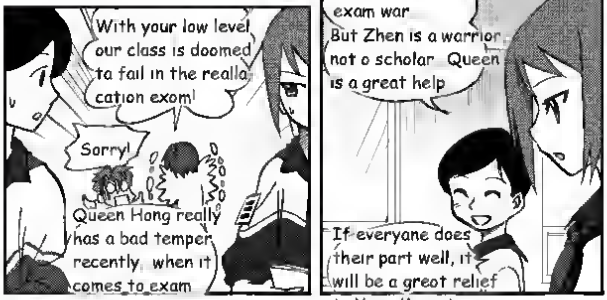
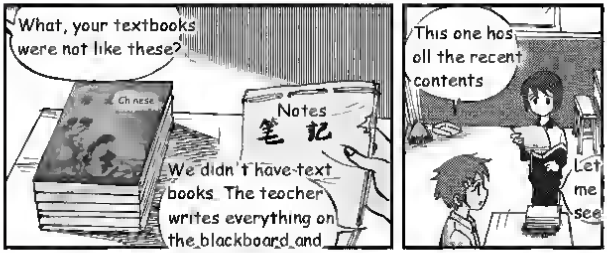
Principal's Office
校长室
What? She's sent to Class 5-3?
I actually suggested the counsellor to enroll Xi in Class 5-2
Ah, then why...

Um
I think the counsellor must have his reasons He's more familiar with teaching after all.
Since he has already arranged it, it's better ta fallaw him here!
Plus isn't Class 5-3 on its way of improving?
It's the best if Xi can improver herself with them
Yeah that indeed sounds nice
Xi is a good kid, we should help her if we can
As long as she can keep up with everything
Maths Problem Set
Here! Try this.

What's this little bunny? Doing papers instead of going home after school?
It's from another class same days ago. It has all key points for the realic cation exam covered. try it
And don't call me little bunny
OK! I have nothing to do at home anyway! Wait and see! I am in the top three of my previous class
One hour later...
So many blank answers... And I did not see anything correct within what you've written down
Hue~
Are you really in the top three? Your class must have only three people!
Woh!!



With your low level our class is doomed to fail in the reallo cation exom!
Sorry!
Queen Hong really has a bad temper recently, when it comes to exam
Queen is clearly eoger to win this exam war
But Zhen is a warrior not o scholar. Queen is a great help
If everyone does their part well, it will be a greot relief to Your Majesty



What, your textbooks were not like these?
Chinese
Notes
笔记
We didn't have text books. The teacher writes everything on the blackboard and we toke notes
This one has all the recent contents
Let me see

These cover at most what we learnt in the 1st term of Year 4, for behind what we are learning now
Little bunny
Whot would happen if our class's grade is dragged down by me?

U17.com

If we have bad grades, aur class will be disbanded and we will go to different classes
We can't be with aur classmates wha we used ta spend aur days together any more
For naw I can anly be a drag an yau
How about this! I ll take a sick leave an the exam day, sa my grades wan't be included
Eh?
It shauld be fine if I talk ta Sis Ling!
But
That's it! I dan't want ta be
a "scourge" again.

T/N:
This is Liuli,the female MC of School Shock, another series on u17.com. No one seems to pick that up ever since the previous group dropped it, despite it's getting an anime adaption next year ..
